To Field Marshal, His Royal Highness Prince Arthur William Patrick Albert, Duke of Connaught and of Stratheam, Earl of Sussex (in the Peerage of the United Kingdom), Prince of the United Kingdom of Great Britain and Ireland, Duke of Saxony, Prince of Saxe-Cobourg and Gotha; Knight of the Most Noble Order of the Garter; Knight of the Most Ancient and Most Noble Order of the Thistle; Knight of the Most Illustrious Order of Saint Patrick; a Member of the Most Honourable Privy Council; Great Master of the Most Honourable Order of the Bath; Knight Grand Commander of the Most Exalted Order of the Star of India; Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George; Knight Grand Commander of the Most Eminent Order of the Indian Empire; Knight Grand Cross of the Royal Victorian Order; Personal Aide-de-Camp to His Majesty the King; Governor General and Commander-in-Chief of the Dominion of Canada.

MAY IT PLEASE YOUR ROYAL HIGHNESS:

The undersigned has the honour to present to your Royal Highness the Annual Report of the Comptroller of Statistics in relation to the telephone interests of the Dominion of Canada for the year ended June 30, 1913.

F. COCHRANE,

Minister of Railways and Canals.

The state of the s The state of the s To the Honourable F. Cochrane,

Minister of Railways and Canals.

SIR,—I have the honour to submit the report of the Comptroller of Statistics in relation to the telephone interests of the Dominion of Canada for the year ended June 30, 1913.

I have the honour to be, sir,

Your obedient servant,

A. W. CAMPBELL,

Deputy Minister of Railways and Canals.

OFFICE OF THE COMPTROLLER OF STATISTICS,

OTTAWA, Dec. 20, 1913.

A. W. CAMPBELL, Esq., C.E.,

Deputy Minister of Railways and Canals.

Sir,—I have the honour to submit herewith Telephone Statistics for the year ended June 30, 1913.

Statistical returns on the prescribed forms of the Department were received from 1,075 telephone organizations, as compared with 683 in 1912. This increase in the number of reports reflects the rapid growth of telephone interests throughout the Dominion.

The telephone has been so widely accepted as a useful adjunct of commercial and social life that it is not surprising there should be a steady multiplication of the number of corporate bodies operating telephone systems. In 1912 there was one telephone in use for every $19 \cdot 3$ persons composing the population of the Dominion. In 1913 there was one instrument for every $16 \cdot 2$ persons.

It is probable, however, that the foregoing ratio would be lowered to about 15·2 if absolutely complete returns had been received. That result was impracticable. There were over 100 operating companies, most of them relatively small, from which returns were not received, or not received in time to be incorporated in the subjoined tabular statements. There was probably a considerable number of additional organizations in operation on June 30 last of which this Department had no direct knowledge.

The telephone industry is not subject to any law, either Dominion or Provincial, which requires the registration of the commencement of operations by any organization. The names and addresses of companies have to be got from a variety of sources. It would be well if a better method were adopted, which would lead to full returns.

It is also desirable, for statistical purposes, that there should be sympathetic co-operation between the Provinces and this Department. If statistics for the Dominion are to be had, there must be an assembling centre. At the present time three or four of the Provinces send out reporting forms, while in the others the matter is ignored. It would simplify the work of gathering authentic data if the reporting forms of this Department were adopted by the Provinces. Confusion and duplication might then be avoided. In this regard it may be said that during the past year there was co-operation in telephone statistics between this Department and the Government of Saskatchewan. The results were highly satisfactory.

During the past year the reporting forms were simplified so as to reduce them to a series of questions. This change was founded on the experience of the Department with the smaller companies during the two preceding years. It resulted in a very material improvement in the returns.

ORGANIZATION.

The number and character of the various organizations which made returns for the year ended June 30 last are shown in the following statement:—

Province.	Govern- ment.	Muni- cipal.	Stock.	Co-oper-ative.	Partner-ship.	Private	Total.
Nova Scotia New Brunswick P.E. Island Quebec Ontario Manitoba Saskatchewan Alberta British Columbia	i		21 12 1 44 143 5 304 1 12	28 3 26 148 14 42	17 1 3 41 1	17 9 28 80 7 9	83 25 1 101 451 35 361 3 15
Total	4	52	543	262	63	151	1,075

As compared with 1912 there was an increase of 17 in the number of municipal, 175 stock, 129 co-operative, 32 partnership and 38 private organizations. Following is a statement of the number of organizations which reported in 1913 and the two preceding years:—

Province.	1911.	1912.	1913.
Nova Scotia	14	12	83
New Brunswick	16	17	25

Manitoba	3	3	35
Saskatchewan	143	206	361
Alberta	4	3	3
British Columbia	5	10	15
Total	537	683	1,075

An increase of 100·1 per cent in numbers within two years is satisfactory and significant.

CAPITAL AND COST.

Capitalization reported in 1913 amounted to \$59,847,004.83—an increase of \$13,570,153.09 over 1912.

The division of capital liability for the past three years has been as follows:—

The distribution of capital liability, by Provinces, in 1911, 1912 and 1913 was as follows:—

Attention is called again to the capital situation as it relates to the Province of Quebec. The Bell Telephone Company, which is the chief organization in the Dominion, and operates in both Ontario and Quebec, has its headquarters in Montreal. The capitalization of the Company is therefore, unavoidably, credited entirely to the Province of Quebec.

Capitalization in 1913 was equal to \$129.13 per telephone in use, as compared with \$124.75 in 1912. The cost of telephone systems of all classes was returned at \$69,214,971.45 in 1913, as against \$56,887,799.15 in 1912.

The total cost in 1912 and 1913 was distributed among the various Provinces as follows:—

	1912	1913
Nova Scotia\$	3,120,452.21	\$ 3,323,901.72
New Brunswick	1,564,231.95	1,653,722.11

British Columbia	4,100,960.86	5,611,084.93
Total	\$56,887,799.15	\$69,214,971.45

Allowance must be made for the facts with regard to the Province of Quebec in accordance with the explanation given in a preceding paragraph.

EARNINGS AND OPERATING EXPENSES.

Gross earnings for 1913 amounted to \$14,877,278.23, and operating expenses to \$11,175,689.47.

There was an increase of \$2,603,651.57 in gross earnings, and of \$2,080,990.65 in operating expenses as compared with 1912.

Net earnings, as represented by the difference between gross earnings and operating expenses, were \$3,757,588.78—an increase of \$578,650.74 over 1912. In this regard, it must be borne in mind that many of the telephone organizations of the Dominion, especially in rural districts, are conducted on a co-operative basis. Such organizations aim to merely balance income and outgo.

Gross earnings were equal to \$32.13 per telephone in use, as against \$33.09 in 1912.

Operating expenses were equal to \$24.10 per telephone, as against \$24.52 in 1912.

Gross earnings and operating expenses were distributed among the Provinces in 1912 and 1913 as follows:—

Danarrinaa	19	2.	1913.		
Province.	Earnings.	Operating Expenses.	Earnings.	Operating Expenses.

EQUIPMENT.

The returns for 1913 showed 1,092,586.77 miles of wire in use, and 463,671 telephones.

There was an increase over 1912 of 203,014.60 miles of wire, and 92,787 in the number of telephones.

Of the wire mileage, $755,587 \cdot 52$ miles were classified as urban and $336,999 \cdot 25$ miles as rural.

There was one mile of telephone wire in use for every 6.8 of the population of the Dominion, as compared with 8.1 in 1912.

SESSIONAL PAPER No. 20d

Total wire mileage, in 1912 and 1913, was distributed among the Provinces as follows:—

		1912.		1913.

Total	269,843	193,828	463,671	370,884	302,759

The telephones classified in the foregoing table as 'Central Energy' are those ordinarily found in cities and large centres. 'Magneto' instruments are attached to village and rural lines.

The observations made in a preceding part of this report with respect to the Bell Telephone Company do not apply to wire mileage and number of telephones in Ontario and Quebec.

EMPLOYEES.

The number of employees returned for 1913 was 12,867, as compared with 12,783 in 1912. There was really an increase of several thousand; but, owing to a change in the wording of the schedule, a vast majority of the returns gave only the number of operators. All other employees were omitted.

The aggregate of salaries and wages for the year was \$6,839,308.85, as compared with \$2,659,641.63 in 1912. This large increment reflects the relative difference which should have appeared in numbers as between the two years.

Allowance being made for the omission of employees other than operators for a majority of the reporting organizations, the following table with regard to numbers and remuneration will be understood:—

Province.		12.	1913.

SESSIONAL PAPER No. 20d

For the succeeding year a schedule will be prescribed which will give elaborate and definite information with regard to employees. This change is suggested by the experience of the past three years.

TELEPHONE TARIFFS.

As was explained last year, it is quite impracticable to prepare a table of telephone tariffs. The facts in that regard have been reported, and they will be kept on file for use as occasion may arise.

I have the honour to be, sir,

Your obedient servant,

J. L. PAYNE,

Comptroller of Statistics.
